Date of Issue: 8th June 2026

MONITORING OF PRICES OF ESSENTIAL COMMODITIES & IMPACT ANALYSIS

GLOBAL CONTEXT

Global Freight rates is currently **8%** higher than they were before the war started & has remained stable compared to last week.

A sustained oil price could add more than **\$20 Billion** a year to the oil import bill of vulnerable economies that depend on imported fuel.

Change in the Net Oil Import Bill from a **50%** price increase represents **4.2%** of GDP for Mauritius.

Small Island Developing States is expected to witness an increase in the Import Fuel Bill of **\$4 Billion** (UNCTAD)

World Food Prices up by **5%** since January 2026

Increase in International prices of Meat (**4%**), Cereals (**6%**), Oils (**10%**) & Sugar (**6%**). International prices for Dairy remained stable.

International Prices of US Dollars Since the start of the Middle East war, **US\$** has depreciated against €, £ and ¥.

Mauritian Rupee remained stable **(+0.3%)** vis-à-vis major traded currencies for the month of June 2026 compared to May 2026.

Summarised Impact

Fertiliser Prices are projected to increase by **31%** in 2026,

driven by a 60% jump in urea prices.

Energy Prices are projected to surge by **24%**

to their highest level.

Commodity Prices forecast to rise by **16%** this year.

fuelling inflation and slowing growth.

Up to **45** Million more people

into acute food security this year, according to the World Food Programme.

A **Systemic Agri-Food Shock** could trigger a severe **Global Food Price Crisis**

Within 6 to 12 Months.

Global Perspective

Global Freight

Global freight rates are currently 8% higher than they were before the war started. As compared to last week, the freight has been stable.

The war has led to main impact:

- A sustained oil price surge could add more than \$20 billion a year to the oil import bill of vulnerable economies that depend on imported fuel (UNCTAD)
- Change in the net oil import bill from a 50% price increase represent 4.2% of the GDP for Mauritius
- Change in the net oil import bill from a 50% price increase, Small Island Developing States is expected to witnessed an increase in the import fuel bill of \$4 billion (UNCTAD)
- 58.3% of the oil imports for Mauritius is sourced from the Hormuz region (UNCTAD)

World Food Prices

Since January 2026, the world prices of food have been on upward trend and increased by 5%

The international prices of Meat (+4%), Cereals (+6%), Oils (+10%) and sugar (6%). The international prices of dairy remained stable.

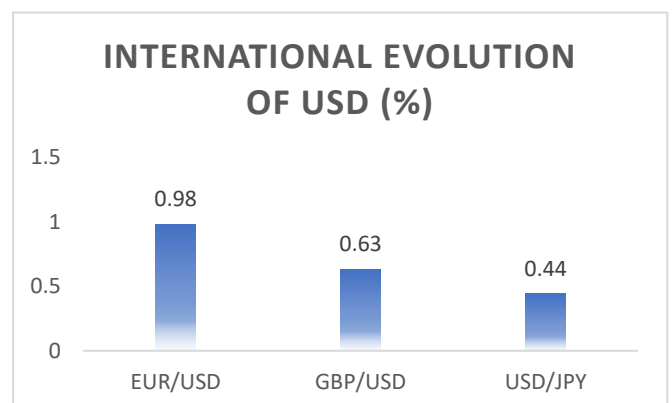

The Impact can be summarised by:

- Fertilizer prices are projected to increase by 31% in 2026, driven by a 60% jump in urea prices.
- Energy prices are projected to surge by 24% this year to their highest level
- Commodity prices forecast to rise by 16% this year, fuelling inflation and slowing growth
- up to 45 million more people into acute food insecurity this year, according to the World Food Programme
- systemic agri-food shock could trigger a severe global food price crisis **within 6 to 12 months.**
- The shock stages: energy → fertilizer seeds → lower yields commodity price increases → food inflation → Slower growth

International Prices of US Dollar

Since the start of the war, the international prices of USD have **depreciated** against the Euros, Pound Sterling and JPY.

The Mauritian Rupee **remained stable** (+0.3%) vis-a-vis major traded currencies (USD, Euros, Pound Sterling, Rands) in the month of May 2026 compared to April 2026.
