# MONITORING OF PRICES OF ESSENTIAL COMMODITIES & IMPACT ANALYSIS

## GLOBAL CONTEXT

Global Freight rates is currently **16%** higher than they were before the war started. Compared to last week, freight has increased by

**3%**

Change in the Net Oil Import

Bill from a **50%** price increase represents

**4.2%** of GDP for Mauritius.

Small Island Developing States is expected to witness an increase in the Import Fuel

Bill of **\$4 Billion** (UNCTAD)

**58.3%** of the oil imports for Mauritius is sourced from the **Hormuz Region**.

World Food Prices up by

**5%**

since January 2026

Increase in International prices of

Meat (**4%**), Cereals (**6%**),

Oils (**10%**) & Sugar (**6%**).

International prices for Dairy remained stable.

International Prices of US Dollars

Since the start of the Middle East war, US\$ has depreciated against £, € and ¥.

Mauritian Rupee remained stable

(**+0.3%**) Euros.

A negligible Appreciation of the Mauritian Rupee has been observed against £ (**1.0%**) while a Depreciation in the rupee against the US\$ for the month of June 2026.

## Summarised Impact

Fertiliser Prices are projected to increase by

**31%** in 2026,

driven by a 60% jump in urea prices.

Energy Prices are projected to surge by

**24%**

to their highest level.

Commodity Prices forecast to rise by

**16%** this year.

fuelling inflation and slowing growth.

Up to **45** Million more people

into acute food security this year, according to the World Food Programme.

A **Systemic Agri-Food Shock** could trigger a severe **Global Food Price Crisis**

Within 6 to 12 Months.

# Global Perspective

## Global Freight

As at date, the global freight<sup>1</sup> rates are currently 16% higher than they were before the war started. As compared to last week, the freight has increased by 3%.

The war has led to main impact:

- Change in the net oil import bill from a 50% price increase represent 4.2% of the GDP for Mauritius
- Change in the net oil import bill from a 50% price increase, Small Island Developing States is expected to witness an increase in the import fuel bill of \$4 billion (UNCTAD)
- 58.3% of the oil imports for Mauritius is sourced from the Hormuz region (UNCTAD)
- Spot rates for the month of June 2026 are +75% from China to East Europe, +51% to North Europe, +45% to Mediterranean and +57% on Transatlantic from North Europe to US East Coast.
- On 18 June, Iran and the US signed a deal aimed at bringing an end to the war, with the Strait set to reopen.

## World Food Prices

Since January 2026, the world prices of food have been on upward trend and increased by 5%

The international prices of Meat (+4%), Cereals (+6%), Oils (+10%) and sugar (6%). The international prices of dairy remained stable.

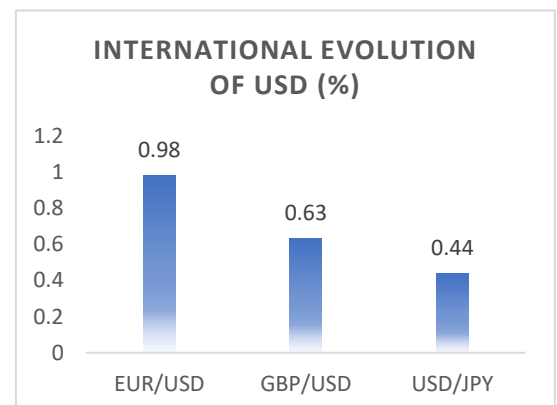

The Impact can be summarised by:

- Fertilizer prices are projected to increase by 31% in 2026, driven by a 60% jump in urea prices.
- Energy prices are projected to surge by 24% this year to their highest level
- Commodity prices forecast to rise by 16% this year, fuelling inflation and slowing growth
- up to 45 million more people into acute food insecurity this year, according to the World Food Programme
- systemic agri-food shock could trigger a severe global food price crisis **within 6 to 12 months.**
- The shock stages: energy → fertilizer seeds → lower yields commodity price increases → food inflation → Slower growth

## International Prices of US Dollar

Since the start of the war, the international prices of USD have **depreciated** against the Euros, Pound Sterling and JPY.

As at date, the Mauritian Rupee remained stable (+0.3%) vis-a-vis Euros. A negligible appreciation of the Mauritian Rupee has been observed against the Pound Sterling (1.0%) while a depreciation in the rupee against the USD, for the month of June 2026.

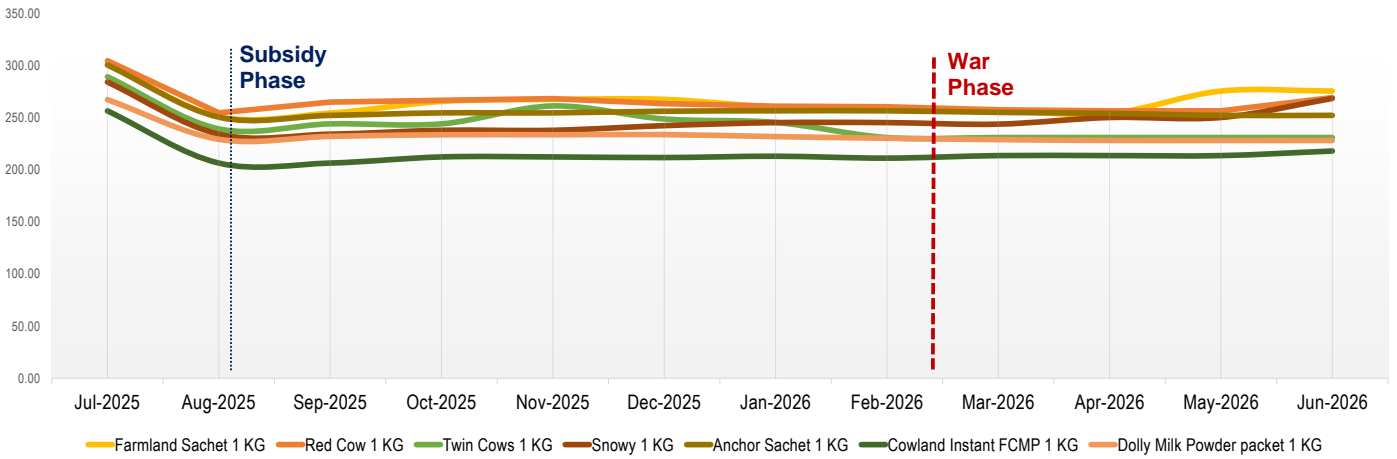

<sup>1</sup> Price of global freight USD 2,786 full container load
