MONITORING OF PRICES OF ESSENTIAL COMMODITIES & IMPACT ANALYSIS

GLOBAL CONTEXT

Global Freight Rates

51%

higher than before the war had started.

v/s last week

+3%

increase in freight.

NET OIL IMPORT BILL

4.2%

of the GDP for Mauritius is represented from a 50% price increase.

58.3%

of the oil imports for Mauritius is transported through the Hormuz Region.

UNCTAD

18 JUNE 2026

Iran & the US signed a deal aimed at bringing an end to the war, with the **Strait of Hormuz set to reopen**.

The **poorest households** could face an extra spending of **2.7%** to **5.5%** of their disposable income & **1.1%** to **2.0%** for the high income, **if the conflict continues**.

Following the announcement of the cancellation of ceasefire, **Brent Crude Oil** rose from **\$72** to **\$82.49** per barrels in a matter of days, with a further increase of **4%**.

Retail Food Prices are already about

38%

above pre-covid levels in the United Kingdom. **Food Inflation** could reach

over **8%**

by June under a severe energy – shock scenario.

WORLD BANK OUTLOOK

Inflation in developing economies is projected at

5.1%

WORLD FOOD PRICES

Up by

5%

Since January 2026.

MEAT
+5%

CEREALS
+3%

OILS
+14%

DAIRY
-3%

As at date, the Mauritian Rupee **remained stable** against the Euro & USD.

The Mauritian Rupee has **lost value** against the Pound Sterling (**1.1%**) since the start of the month of July 2026.

MONITORING DIVISION**

Global Perspective

Global Freight

As at date, the global freight¹ rates are currently 51% higher than they were before the war started. As compared to last week, the freight has increased by 3%.

The war has led to main impact:

- Change in the net oil import bill from a 50% price increase represent 4.2% of the GDP for Mauritius
- 58.3% of the oil imports for Mauritius is sourced from the Hormuz region (UNCTAD)
- If the conflict continues, the poorest households could face an extra spending of between 2.7% and 5.5% of their disposable income, while 1.1% to 2.0% for the richest households.
- Following the announcement of the cancellation of ceasefire, Brent crude oil increased from \$72 to \$82.49 per barrels in matter of days and a further increase of 4% in Brent prices.
- In the UK, retail food prices are already about 38% above pre-Covid levels, and food inflation could reach over 8% by June under a severe energy-shock scenario
- World Bank projects for inflation of 5.1% for developing economies, higher than pre-war forecasts, with commodity prices to rise 16% this year due to rise in energy and fertilizer costs

World Food Prices

Since January 2026, the world prices of food have been on upward trend and increased by 5%

The international prices of Meat (+5%), Cereals (+3%) and Oils (+14%). The international prices of dairy fell by 3%.

The Impact can be summarised by:

- Fertilizer prices are projected to increase by 31% in 2026, driven by a 60% jump in urea prices.
- Energy prices are projected to surge by 24% this year to their highest level
- Commodity prices forecast to rise by 16% this year, fuelling inflation and slowing growth
- up to 318 million people can move into acute food insecurity this year, according to the World Food Programme
- systemic agri-food shock could trigger a severe global food price crisis **within 6 to 12 months**.
- The prices for food in Japan, climbed by 3.1 percent in June, such as instant noodles and frozen goods as the conflict drives up crude oil and naphtha costs (key input for packaging and printing).

International Prices of US Dollar

For the month of May, since the start of the war, the international prices of USD have **gain in value** against the Euro (-0.46%) and GBP (-0.1%) but **lose in value** against JPY (1.34%).

As at date, the Mauritian Rupee remained stable against the Euro and USD. However, the rupee has lost value against the Pound sterling (1.1%) compared to the start of month of July 2026.

¹ Price of global freight USD 2,786 full container load
